# Notes for My Paper

Don't forget to include examples of topicalization. They look like this:

(1) Topicalization from sentential subject:
a John$_i$ [a kltukl   [el   **l**-oltoir   er ngii$_i$ a Mary]]
          R-clear COMP **IR**.3s-love P him
John, (it's) clear that Mary loves (him).

How to handle topicalization

I'll just assume a tree structure like (2).

(2) Structure of A$'$ Projections:

         CP

   Spec   C$'$

      C   SAgrP

Mood

Mood changes when there is a topic, as well as when there is WH-movement. *Irrealis* is the mood when there is a non-subject topic or WH-phrase in Comp. *Realis* is the mood when there is a subject topic or WH-phrase.
